

## Minisymposium

# “Materials Chemistry with a Supramolecular Flavor”

**Jeudi 24 octobre 2024 14h00-16h00**

Amphithéâtre Henri Benoît – Institut Charles Sadron

### **Rafal Klajn**

Institute of Science and Technology Austria, Autriche

“Supramolecular control of azobenzene switching”

### **Max von Delius**

Institute of Organic Chemistry, University of Ulm, Allemagne

“Performing selective syntheses within carbon nanohoops”

### **Roxanne Kieltyka**

Leiden Institute of Chemistry, Pays-Bas

“Squaramide-based supramolecular biomaterials”

### **Ludovic Favereau**

Institut des Sciences Chimiques de Rennes, France

“From chiral closed- to open-shell molecular materials: a potential new direction in optoelectronics”
